

## Paul Conrady

Following the sale of their family's 32 year old, 24/7 security electronic business, Paul started volunteering with his brother Greg at the Patriot Clinic in Oklahoma where veterans returning from war could receive Hyperbaric Oxygen Therapy sessions for free.

Removing the insurance approval, the cost of therapies, and providing "John Doe" client status removed all barriers thus provided a window to witness miraculous outcomes and provided stories of hope that they could not walk away from.

Finding free HBOT unsustainable their family has opened the first of many clinics to treat, educate, and heal those in need using God's patented pharmaceutical, Oxygen. Their desire is to work with the many pioneers that have been unlocking the processes that make Oxygen therapy viable, accepted by insurance companies, recognized by the medical community, making it affordable and accessible to the masses.

Paul is a serial entrepreneur who continues to work in the IoT/Life Safety space. Paul is the Founder of Crimeseen.com, member of Edmond Central Rotary, past President of the Oklahoma Burglar and Fire Alarm Assoc, past Secretary of the Oklahoma Inventors Congress, past Chairman of the Oklahoma Sportsman's Assoc, past Chairman of the Heartland Friends of NRA, past director of the Oklahoma Youth Hunter Education Challenge.
